Put Your Trust in the Name You Know

For more than 90 years Schlage® has been providing innovative security solutions for schools, hospitals, hotels, condominiums and a host of other commercial buildings. Today, Schlage is at the forefront of cutting-edge technology including wireless security, access control systems including readers, credentials and biometrics. With a wide range of products, styles and finishes, Schlage has what you need no matter how demanding your project specifications may be. And, we stand behind every product we make with the best after-sales service in the business. It’s this commitment to design, performance and technology that ensures you can stand behind our products too.

This chart shows the most common uses/applications and these products are often used in other applications in addition to those listed.
Real Security is Knowing Exactly What You Want and Getting It

When you know exactly what you want, you don’t want to waste time finding out whether it meets your project specifications. That’s why we offer the world’s largest team of hardware specification writers to help you and your clients turn your vision into reality. And when it comes to products, our commercial suiting options, wide variety of lever designs and rich selection of finishes give you the tools you need to make your projects perfect. You know what you want. With Schlage you can be sure you’ll get it.

Safety, Security and Confidence

When you choose a Schlage lock you can be sure you’ve done the job right the first time. After all, our products are among the most durable and dependable on the market today. Our locks are easy to install, and simple to repair and maintain. That means fewer callbacks for you and total safety and security for your customers.
Continuous Improvements make the ND-Series a Simpler, Smarter, Stronger lock.
The ND-Series has long been one of Schlage’s best selling mechanical locks for good reason - it’s tough, durable, Grade 1 rated and fits a wide variety of applications. Now we’ve made our trusted ND-Series lock even better by making it easier to install. We’ve added these enhancements because we know that a lock installed correctly the first time will last longer and perform better. And the longer the lock lasts, the lower the cost of ownership over the life of the lock. We’ve also beefed up our warranty to provide 10 years of coverage. The result: greater peace of mind that every door is safe and secured with a lock built to last.

So not only do you get our toughest Grade 1 cylindrical lock, that is ideal for use in schools, hospitals, offices, retail spaces, colleges, universities and other applications. You also get the promise of continuous improvements and innovations and our greatest warranty backing your project.

Pictured here: Sparta lever shown in 626 Satin Chrome

We don’t compromise on security.
The safety and security of your clients’ buildings is something we take very seriously. That’s why every Schlage lock and deadbolt undergoes intensive testing to determine its ANSI grade level:
- Cycle tests
- Resistance tests
- Door impact tests
- Warped door tests
- Bolt strength tests

We pay attention to these details so you can focus on creating a functional and aesthetically pleasing environment for your clients. In fact, every one of our ND-Series locks meets ANSI Grade 1 standards for safety.
ND-Series

The Schlage ND Series is the toughest cylindrical lock we make. That means you get premium durability and performance in a lock that’s also easy to service and maintain. And because we test our locks beyond the standards required by ANSI, you know that you’re getting a product you can count on to withstand the use and abuse that come with heavy duty commercial applications.

Pictured here: Athens lever shown in 626 Satin Chrome
Built to perform without fail.

- Tested to three times the ANSI Grade 1 requirement
- Exceeds ANSI A156.2, Series 4000 Grade 1 locked lever torque requirements
- 10-year Limited Warranty

ND-Series with Vandlgard

The ND-Series Vandlgard is ideal for areas subject to abuse or anywhere vandalism is likely to be present, such as schools, universities, offices and commercial/public buildings. Vandlgard prevents damage to internal lock components caused by excessive force from hitting or standing on the lever to gain access. Vandlgard functions maintain total key system and architectural design compatibility with Schlage’s regular ND-Series cylindrical locks.
Lever Designs

**Athens (ATH)**

Material: Pressure cast zinc lever; wrought brass rose

**Rhodes (RHO)**

Material: Pressure cast zinc lever; wrought brass rose

**Sparta (SPA)**

Material: Pressure cast zinc lever; wrought brass rose

**Tubular (TLR)**

Material: Pressure cast zinc lever; wrought brass rose

**Omega (OME)**

Material: Pressure cast zinc lever; wrought brass rose

All designs shown in 626 Satin Chrome

- Standard cylinder.
- FSIC - Full size interchangeable core option.
- SFIC - Small format interchangeable core option.
- = Complies with ADA Accessibility Guidelines.
- = Antimicrobial coating available on 626 finish only.
- = Meets California code for 1/8" or less return to the door.
- = Extended factory lead time.

Tactile Warning

**Milled**

Order as follows:

- 8AT for Athens
- 8RO for Rhodes
- 8SP for Sparta

**Knurled**

Order as follows:

- 8TR for Tubular

Only available on outside lever, unless otherwise specified.

Door Handing

All ND levers are reversible. Hand information is necessary to ensure proper cylinder orientation in keyed functions, and finish of latchbolt and strike for locks that are to be installed on reverse bevel doors. Follow the diagram to correctly determine the hand of the door.

ADA-Compliant Products

In compliance with the American National Standards Institute (ANSI A117.1) and the Americans with Disabilities Act (ADA), Schlage Lock Company offers a wide selection of locks designed for the needs of the physically challenged. This act is designed to provide protection for people with disabilities.

The intent of ADA is that owners of certain types of buildings must remove barriers and provide people with disabilities with access equal to, or similar to, that available to the general public.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.

Entrance Lock
• Turn/push-button locking: Pushing and turning button disengages outside lever, requiring using of key until button is manually unlocked.
• Push-button locking: Pushing button disengages outside lever until unlocked by key or by turning inside lever.
• Vandlgard is designed to disengage outside spindle from latch when locked.

Vestibule Lock
• Latch retracted by key from outside when outside lever is disengaged by key in inside lever.
• Inside lever is always unlocked.
• Vandlgard is designed to disengage outside spindle from latch when locked.

Classroom Lock
• Outside lever disengaged and unlocked by key.
• Inside lever always unlocked.
• Vandlgard is designed to disengage outside spindle from latch when locked.

Storeroom Lock
• Outside lever always disengaged.
• Entrance by key only.
• Inside lever is always unlocked.
• Vandlgard is designed to disengage outside spindle from latch when locked.

Corridor Lock
• Locked or unlocked by key from outside.
• Push-button locking from inside.
• Inside lever always free for immediate exit.
• Inside lever is always unlocked.

† Caution:
Double cylinder locks are a life safety hazard in times of emergency and their use is not recommended. Installation should be in accordance with existing codes only.
ND-Series Electrified Locks

ND-Series locks are available for electrically locking and unlocking controls for high security and fire safety applications. They are UL Listed and rated for both fire and electrical single-point locking on labeled doors. RX feature is available on ND10, ND12, ND80 and ND96 families. Switch is ready to be used in a normally open or normally closed application.

Special prep required for RX feature. See service manual for details.

Electrical Requirements

**Voltage**
24VAC or 24VDC

**Holding Current**
.15A or .35A

**Operating Temperature**
Maximum +151ºF (+66°C)
Minimum -31ºF (-33°C)

Note: All installations should be in accordance with local electrical codes.

Typical Wiring Diagram for Electrified Locks

**AC Power Source – EL or EU**

**DC Power Source – EL or EU**

ND-Series Other Special Functions

**ND30D**

**Patio lock**
Push button locking. Turning inside lever or closing door releases button, preventing a lock-out. Inside lever always free for immediate egress. Specify per XN12-007.

**ND25 x 80PD**

**Storeroom exit lock**
Blank plate outside. Key in fixed inside lever retracts latch. Specify per XN12-005.

**ND25 x 70PD**

**Classroom exit lock**
Blank plate outside. Key locks or unlocks inside lever. Specify per XN12-004.

**ND60PD**

**Vestibule with closed outside lever**
Same as ND60 except outside lever is closed. Inside lever always free for immediate egress. Specify per XN12-001.

**ND70 x 80PD**

**Classroom by storeroom lock**
Key locks and unlocks outside lever. Key in fixed inside lever retracts latch. Specify per XN12-006.

**ND72PD**

**Communicating Lock**
Key in either lever locks and unlocks on lever. Specify per XN12-002.

**ND72PD**

**Vandlgard communicating lock**
Communicating, ND72, lock with Vandlgard. Key in either lever locks and unlocks own lever. Both inside and outside levers are clutching. Specify per XN12-003.
Cylinders and Key Systems

New and existing key systems.

If you’re implementing a completely new key system Schlage can help you design a system that can grow and change along with your needs, allowing you the flexibility to upgrade your security without the need to replace all your cylinders.

Existing key systems.

Schlage offers two key systems that are ideal for upgrading an existing key system to control key management. Our patent-protected cylinders help prevent unauthorized duplication and can be integrated into virtually any existing system.

**Standard Cylinders**

Standard cylinders are available in Classic keyways or in patented Everest 29™ keyways. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

**Standard Cylinders - Options**
- 6-Pin conventional (standard)
- Primus XP high security
- Primus XP UL437 Listed high security
- Hotel cylinder
- Temporary construction plug, plastic for functions

*Available in 606 and 626 finish only. Everest 29 S123 keyway standard.*

**Full Size Interchangeable Core**

Schlage FSIC full size interchangeable core (IC) locksets allow immediate rekeying at the door simply by using a special control key to replace the core.

**Full Size Interchangeable Cores - Options**
- Conventional core
- Primus XP high security core
- FSIC Driver

*Available in 606 and 626 finish only. Everest 29 S123 keyway standard.*

**Primus XP Access Control and High Security Cylinders**

Classic Primus XP cylinders are recommended for upgrading existing Classic key systems. Due to its extended patent life, the newly designed Everest 29 Primus XP is recommended for new key systems and for upgrading existing Everest 29 key systems. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

See Schlage Cylinders, Keys and Key Control Catalog (SC-5293) for more details.
Small Format Interchangeable Core

Available in all lever designs, the SFIC (small format IC) option is designed for Schlage Everest 29™ R Family Restricted keyway cores and is also compatible with other small format interchangeable cores.

Small Format Interchangeable Cores - Options

- 7-Pin uncombinated Everest 29 R Family Restricted keyways •
- 7-Pin combined Everest 29 R Family Restricted keyways •
- 6-pin uncombinated Falcon / Best keyways - all keyways ▲
- 7-pin uncombinated Falcon / Best keyways - all keyways ▲
- Disposable plastic construction core
- SFIC Driver
- Spacer for 6-pin cores

Available 606 and 626, 613 (simulated) finish only. Specify keyway for existing systems.

• Cores are available in Best A, D, E, F, G, H, J, K, L, and M keyways. Specify keyway by suffixing “B” to keyway letter, e.g. “AB”.

▲ Restricted keyway cores require a letter of authorization from the end user. Schlage assigns the keyway when establishing new Everest 29 Restricted key systems.

*M204-152 does not have a finish option.
Latches

ND-Series latches are adjustable for flat or beveled edge doors. Latches and strikes are furnished in brass, bronze, or chrome finishes to be compatible with lock trim. When ordering, specify quantity, part number, and finish. All ND-Series latches have $\frac{1}{2}''$ throw and 1” housings except 2$\frac{3}{8}''$ backset latches, which includes sleeve G506-815 to fill a 1” edge bore. Standard latches are shown in bold type.

### Deadlatch

3/4” Throw Anti-Friction Deadlatch for Pairs of Fire Doors

G506-815

### Springlatch

### Long Backsets

ND-Series locks with 5” backsets are normally furnished with 1$\frac{1}{4}''$ faceplates and 1” housings. Links installed in metal doors require one A501-567 sleeve and 43-005 (order separately) to join latch and link.

### Door Reinforcement

Reinforcing unit is required to reinforce and help prevent the collapse of hollow metal doors when locksets are tightly mounted. This kit should be used with long backsets for ND-Series lock installations in hollow metal doors to prevent lateral movement of the latchbolt. Specify door thickness, 1$\frac{3}{8}''$ (35 mm) or 1$\frac{3}{4}''$ (44 mm), when ordering reinforcement kits.

### Reinforcement Kit

Reinforcement Kit 37-001

Kit includes:

- Reinforcement
  - A501-566 for 1$\frac{3}{4}''$ doors or
  - A501-565 for 1$\frac{3}{8}''$ doors
Strikes

All Schlage strikes are furnished complete with screws.
The standard ND-Series strike has a 1 3/16” lip.
When ordering separately specify quantity, product number,
finish, and lip length. Standard strikes are shown in bold type.

Strikes - Options

- 1 3/4” x 2 3/4” (28mm x 70mm) Square corner, T-strike, box - 1 3/8” (28mm) Lip Length
- 1 3/4” x 2 3/4” (28mm x 70mm) Square corner, T-strike, box - 1 3/8” (38mm) Lip Length
- 1 3/4” x 4 7/8” (32mm x 124mm) Standard, no box, ANSI - 1 3/16” (30mm) Lip Length
- 1 3/4” x 4 7/8” (32mm x 124mm) ANSI, no box - 1 3/16” (35mm) Lip Length
- Box for 10-025 ANSI strike

Rabbeted Latch and Strike Kit

Rabbeted latch and strike kit finishes: 605, 626.
This kit adapts square corner latches and 2 3/4” (28mm) high strikes for 3/8” (13mm) rabbeted door and frame preparations.

Accessories

1 3/8” D-Series Lever Door Spacer

*For installation on 1 3/8”, doors, two (2) spacers are required. Specify finish.
Specifications

Handing:
All ND-Series lever locksets are non-handed.

Door Thickness:
15/8” to 21/8” (41mm–54mm) standard including Vandlgard’ functions. 13/4” - 2” for function D85. See accessories (Page 21) for spacers required for 13/8” doors.

Backset:
23/4” (70 mm) standard. 23/8”, 33/4” and 5” (60 mm, 95 mm, 127 mm) optional.

Faceplate:
Brass, bronze or stainless steel. 11/8” x 21/4” (29 mm x 57mm) square corner, beveled.

Lock Chassis:
Zinc plated for corrosion resistance.

Latch Bolt:
Steel, 1/2” (12mm) throw, deadlocking on keyed and exterior functions. 3/4” (19 mm) throw anti-friction latch available for pairs of fire doors.

Exposed Trim:
Levers: Pressure cast zinc, plated to match finish symbols. Roses: Brass, bronze or zinc.

Strike:
ANSI curved lip strike 11/4” x 47/8” x 13/16” lip to center standard. Optional strikes, lip lengths and ANSI strike box available. See page 21.

Cylinder & Keys:
6-pin Everest 29 S123 keyway standard with two patented nickel silver keys per lock.

Keying Options:
Interchangeable core and Primus high security cylinders. Master keying, grand master keying and construction keying.

Warranty:
Ten-year limited for all functions including Vandlgard.

Certifications

ANSI:
Meets or exceeds A156.2 Series 4000, Grade 1 strength and operational requirements. Meets A117.1 Accessibility Code.

Federal:

California State Reference Code:
(Formerly Title 19, California State Fire Marshal Standard) All levers with less than 1/2” (64mm) returns comply; Schlage levers return to within 1/2” of door face.

MEA Certification:
All electrified locking (fail-safe, unlocked by switch or power failures) functions accepted for use in New York City by the City of New York, Department of Buildings (MEA 24-04-E).

All levers with less than 1/2” (64mm) returns comply with California Fire Safety Codes.

Florida Building Commission:
3/4” and 1/2” throw latch approved for Hurricane Resistance with Miami-Dade County, Florida.

UL / cUL:
All locks listed for A label single doors, 4’ x 8’. Letter F and UL symbol.

ADA Compliant:
Schlage Lock Company offers a wide selection of locks designed to meet the Americans With Disabilities Act.
Ingersoll Rand (NYSE:IR) advances the quality of life by creating and sustaining safe, comfortable and efficient environments.
